About ComicBookMovie.com

ComicBookMovie.com is a fansite reporting breaking news and providing unique content about current Hollywood projects that bring comics characters and storylines to the big screen.

CBM came online in 2003 during the infancy of Hollywood's interest in adapting movies from comic books and graphic novels, and has quickly become the #1 online destination for information about the genre. Currently the site boasts millions of monthly visitors, and the most active online community in the genre. In 2008, CBM expanded its coverage to include all SciFi, Fantasy and Horror related properties, but retains it's main focus upon comic book movies.

If you're an advertiser who is interested in reaching our highly targeted users, [CLICK HERE for more information about Advertising on CBM.](#)

About CBM's User-Generated Content and Fansites!

Also in 2008, CBM developed its unique fansites concept and opened up the site to user-generated content from its large community of passionate users. Now visitors of the site can contribute directly to CBM's content with their own news aggregation and unique articles. While a large group of volunteer contributors maintain the professional quality of the content, user contributions appear immediately on the site. All visitors need to do to contribute is join. The fan site concept has morphed into user profile pages, where all contributions and content can be accessed by visitors to the site. Nathan Best - President & Owner

ComicBookMovie.com and Best Little Sites was the brainchild of Nate and a friend way back in 2003. Nate initially focused on the back-end programming and front-end design, but now manages the company and its associated sites as well, with a LOT of help from some very talented contributors.

THE FLASH
Director Andy Muschietti Shares New Teaser Image Of A Batsuit Unlike Any We've Ever Seen Before

PEACEMAKER:

Nate has loved comics from a very young age and continues to read them on a regular basis thanks to subscriptions to various titles (both Marvel and DC). He also loves movies, as his wife and children will attest. He's not overly critical of movies, so his reviews should be taken with a grain of salt as he's much more interested in being entertained and escaping the "real" world for a couple of hours than finding every conceivable plot-hole and character flaw in a film.

Outside of his guilty "nerdy" pleasures, Nate enjoys spending time with his wife and three boys, CrossFit, playing guitar, coaching youth sports and MMA (he spent a couple of years in the cage as an NHB fighter, but is now MUCH too old).

Top Contributors

Josh Wilding

A member of ComicBookMovie.com since 2009, Josh is a lifelong comic book fan who has so far contributed over 9000 articles to the site with a focus on breaking news, reviews and editorials. Since joining CBM, he has gone on to also write for HeyUGuys, Batman-News, Spider-Man News and Mirror Online, all thanks to the opportunities presented to him by this very site. Josh is based in Cardiff, Wales

Mark Cassidy

Mark has been contributing to CBM for 12 years, though he also peddles his wares to other sites (including Scannain and The Playlist) occasionally, and edits other people's lovely films. He resides in Ireland, where it rains 11 out of 12 months of the year, and the grumpy bastard wouldn't have it any other way. He has a passion for all things film and comic related, and also dabbles in amateur film making, screenwriting and photography. Big cheesecake fan, but wouldn't dream of becoming

a baker.

Mark Julian

Mark is a graduate of the University of Michigan and holds a degree in Architecture. However, writing and film are an equal passion. Ever since picking up an issue of Jim Lee's X-Men in the early '90s, Mark has been fascinated with the world of superheroes and villains. Similarly, watching Shinichirō Watanabe's Cowboy Bebop created a lifelong infatuation with anime and manga. Mark hopes to one day join the ranks of his favorite creators and produce his own sci-fi fantasy novel and/or comic book. He

resides in Washington, D.C. with his girlfriend and is currently planning to indoctrinate his firstborn into the Church of Batman.

Rohan Patel

Rohan earned his Bachelor of Science in Accounting from East Carolina University. He has been contributing to ComicBookMovie.com since July of 2011.

BIO

As a lifelong comic book, film, and wrestling fan, I have been fortunate enough to take those passions and use them to embark on a successful career as a journalist and Rotten Tomatoes approved critic which has spanned over 11 years.

Based in England with my wife Jenna, I frequently travel to London, and have visited cities like New York, Dallas, Orlando, and Toronto for work-based opportunities. Those have included events like *WrestleMania* and *SummerSlam*, as well as junkets and conventions like Kapow! Comic-Con, London Film and Comic-Con, and Walker Stalker Con.

In 2014, I graduated from Cardiff University in Cardiff, Wales, with a BA (Hons) in English Language.

As ComicBookMovie.com's top contributor, my role has consisted of posting a high volume of breaking film and television news stories as well as reviews and long-form features. I have also interviewed a huge array of talent both on camera and over the phone for films like *Avengers: Endgame*, *Captain Marvel*, *Mission: Impossible - Fallout*, *Spider-Man: Far From Home*, and *Zombieland: Double Tap*.

During my time with the site, I've helped manage the Twitter, Facebook, and Instagram accounts (growing their followers by thousands of users) and have used Google Analytics to track pageviews in order to best establish how to increase traffic to the website. That resulted in the articles I published receiving over 174 million pageviews in 2019.

I continue to write for a number of other websites, and my work can also be found on WhatCulture, Batman-News, HeyUGuys, Mirror Online, PW Mania, and We Got This Covered. I also helped launch The Ring Report and Spider-Man News. I've also been asked to provide insight on superhero movies and TV shows for publications like The Wall Street Journal and the Wales on Sunday magazine.

STAR WARS: THE LAST JEDI Actress Laura Dern Shares New Image Of Vice Admiral Amilyn Holdo

Laura Dern (*Jurassic Park*, *Twin Peaks: The Return*) appeared on The Ellen Show this morning, and brought along a new image of her mysterious *Star Wars: The Last Jedi* character, Amilyn Holdo. Take

a look...

RorMachine | 10/18/2017
Filed Under: "Star Wars"

Out of three main characters - the other two being DJ (Benicio del Toro) and Rose Tico (Kelly Marie Tran) - that'll make their first trip to the galaxy far, far away in Rian Johnson's *Star Wars: The Last Jedi*, we probably know the least about purple-haired Resistance leader Vice Admiral Amilyn Holdo - and it looks like it's going to stay that way for a while longer.

Though Laura Dern did debut a new image of her character on *The Ellen Show* today, she couldn't really share any new details about her. However, Dern did confirm that Holdo will see some action in the movie by revealing that she uses a blaster at one point.

You can check out the video interview for yourselves below along with the new still.

STAR WARS: THE LAST Jedi International TV Spot Features Benicio Del Toro As The Mysterious DJ

An international TV spot for Rian Johnson's *Star Wars: The Last Jedi* has found its way online, and this one features a new glimpse of a character we still know next to nothing about: Benicio Del

Toro's DJ.

RorMachine | 11/20/2017
Filed Under: "Star Wars"

We're starting to discover a little more about the characters that are going to be introduced in *Star Wars: The Last Jedi*, but one new recruit that's managed to fly under the radar is the enigmatic DJ.

Benicio Del Toro did recently describe his character as a "shady individual" who is neither a hero nor a villain, and this latest international TV spot appears to back that up as DJ is spotted in amongst the First Order.

Is he a prisoner, or does the "slicer" have dealings with the enemies of The Resistance? We'll find out when *Star Wars: The Last Jedi* hits theaters next month.

It remains to be seen how the final installment in the new trilogy **deals with Leia's absence**, but whatever happens, *The Last Jedi* served as a fitting sendoff for Carrie Fisher and her iconic character.

It was recently confirmed that Carrie Fisher will make a posthumous appearance in *Episode IX*, and while fans obviously shouldn't expect to see too much of the beloved former Princess in the film, it does sound like J.J. Abrams may have at least found a way to make her an important part of the plot and give us all a satisfactory conclusion to Leia - and Carrie's - story.

Another shot of Rey in action. Look closely to the left and you'll notice that Chewbacca appears to be holding on to BB-8! What's particularly awesome about this is the fact that Abrams is clearly planning to once again utilize plenty of practical effects.

We know that J.J. Abrams and Lucasfilm have used footage from *The Force Awakens* to bring Carrie Fisher back for this movie, and while that more than likely means Leia's role in this finale will be a fairly small one, it hopefully also ensures that we'll get to say a proper goodbye to the character.

Jordanian locals reportedly play the Aki-Aki, natives of the planet Pasaana. We don't know how significant their role will be, but even if they're just background extras to make this new planet feel more lived in, it's fair to say Lucasfilm has succeeded in finding a very cool and unique look for them.

No, those very Earthly looking wheels haven't suddenly found their way into a Galaxy Far, Far Away. As these are behind the scenes images, certain effects have not been added, so it will be very interesting to see how the finished product looks when this movie hits the big screen in December.

Finn is pictured here alongside his new ally Jannah (Naomi Ackie), a character many fans are convinced is the daughter of Lando Calrissian. They're sitting atop Orbaks and in the magazine's cover story, and the actress is quoted as saying, "It's extremely surreal to be in it and see how it works from the inside." These creatures definitely looks like potential scene-stealers.

The franchise's three new leads were split up in *The Last Jedi*, but they're clearly going to be brought together again for this final film, which should make fans happy. While Rian Johnson's movie was well-received by critics, the trio of stories all taking place at the same time were criticised for making it feel a tad disjointed.

No, that's not General Hux's father (his story has already been covered in various tie-in novels). Instead, Richard E. Grant will be playing Allegiant General Pryde and he's pictured here on the bridge of Kylo Ren's Star Destroyer. What role he will play in the proceedings remains to be seen.

No, this isn't Jaaku. It's actually a planet called Pasaana, and we'll have more details on it for you a little later today. These scenes were shot on location in Jordan, so that would explain why the cast (and director J.J. Abrams, in particular) are looking so warm here as Daisy Ridley films scenes as Rey.

Director J.J. Abrams can be seen here alongside Stunt Coordinator Eunice Huthart and, yes, those armored figures are indeed the Knights of Ren. First teased in *The Force Awakens*, they were nowhere to be seen in *The Last Jedi* but will clearly have a key role to play here. It's worth noting that they're all wielding very normal (and ancient) looking weapons rather than lightsabers.

STAR WARS: THE RISE OF SKYWALKER Has A Very Interesting Alternate Title In Japan

This may mean absolutely nothing or could be something huge, but the Japanese title for *Star Wars: The Rise of Skywalker* has been revealed and it's quite a bit different. Find out more after the jump...

It's going to be a busy summer for Disney, but we don't have much longer to wait before they start marketing *Star Wars: The Rise of Skywalker*. It's possible that another trailer or some sort of featurette will be released during next month's San Diego Comic-Con, but in the meantime, we have some very interesting new details about the movie's title in Japan.

As you can see below, it will reportedly be titled

Now, translation issues mean titles are changed overseas all the time so we may not want to read too much into this. However, this title definitely alludes to a new beginning of sorts for the Skywalker family and could be considered "confirmation" of those rumours that the new name for Force users moving forward will be "Skywalker." We'll just have to wait and see, though!

Ultimately, we still don't know what either title really means or which Skywalker they refer to. Is Rey somehow related to Luke, or is Ben Solo going to be redeemed at last?

Let us know your theories in the comments section!

It's pretty obvious that the stakes in *The Rise of Skywalker* will be high, but Vanity Fair's sources have dropped a bombshell which may completely re-evaluate how we look at this final chapter.

Apparently, the movie is finally going to bring an end to the millennia-long conflict between the Jedi Order and the Sith, and that means one of these groups is going to be destroyed for good.

For many, *The Last Jedi* was the pinnacle of the *Star Wars* saga, but there's no getting around the fact that some people just flat out hated the movie.

Lucasfilm and director JJ. Abrams will obviously be hoping the final installment in the Skywalker Saga proves to be less divisive, and, according to Rey actress Daisy Ridley, the film will serve as a satisfying conclusion.

Ridley appeared on Good Morning America to promote her new movie

Opheia, and answered a few question about *The Rise of Skywalker*. She didn't spill any plot details, of

Ridley is probably a little biased, and an actor praising the movie they're about to appear in is hardly big news. Still, we're going to remain optimistic about this one and take her word for it.

STAR WARS: THE RISE OF SKYWALKER's Runtime Possible Revealed Along With Some Potential SPOILERS

Don Williams, the brother of composer Jon Williams, is also working on *Star Wars: The Rise of Skywalker* and in a new interview, he seemingly drops some big details about the highly anticipated movie...

Josh Wilding | 8/12/2019
Filed Under: "Star Wars"

Don Williams is a conductor, composer and percussionist who has worked with his brother Jon on a regular basis over the years, hence why he was part of a *Jurassic Park* panel for the Academy of Scoring Arts this past weekend. After being asked about *Star Wars: The Rise of Skywalker*, Williams dropped some very interesting details about the movie...including its runtime!

"Jon's started up with another *Star Wars*," he explains in the video below. "We started our last week. He's got a 135 minutes worth of music to write. Okay, so that kind of tells you how long the film is [laughs]. It is top to bottom music. We've done four days. We just scratched the surface. I think we've got something like 34 minutes in the can at this point."

With that in mind, there's a very good chance that *Star Wars: The Rise of Skywalker* will be between two and a half and three hours long. Don then went on to drop some hints about what to expect.

"I can tell you that every theme that you ever heard is going to be compiled into this last effort. Every one. Leia. Yoda. The Phantom. Darth. All of it. It's going to be in there. And in his usual style, he hides them. You gotta go look for them. You'll find them, but you gotta go look for them."

"You'll be sitting there watching the film go by. 'Oop, there is it. There's two bars of it.' And it grabs you. It takes you away," he concluded, possibly hinting that we'll see those characters in the film...

Kylo Ren's "Creepy Castle" On Mustafar

There's a scene in *The Rise of Skywalker* trailer where a sinister looking hairy hand can be seen repairing Kylo Ren's shattered mask. Apparently, that "ape man" has been described as the owner or caretaker of a "Creepy Castle/Sith Temple" which Kylo and his Knights of Ren are based at in the film.

It's said that this alien not only fixes Ren's mask but helps him activate a device which will allow the villain and his Knights to achieve their goals. Your guess is as good as ours when it comes to what that might mean, but it's thought that this sequence could take place on Mustafar, so there's a chance we'll finally get to visit Darth Vader's old castle on the planet...

There are two separate covers for Rey and Kylo, and a third featuring the representatives of the light and dark sides of the force standing together.

There are persistent rumors that Kylo Ren (Adam Driver) will ultimately turn his back on the dark side of the force and team up with Rey (Daisy Ridley) to put an end to Emperor Palpatine, but that obviously remains to be seen. Even if that proves to be true, it's clear from these covers and the previous trailers that they will throw down one final time first.

STAR WARS: THE RISE OF SKYWALKER's Oscar Isaac Blames "Disney Overlords" For No Poe/Finn Romance

Ever since *The Force Awakens* was released in 2015, a huge number of fans have been "shipping" Poe Dameron and Finn. However, that ultimately came to naught, and Oscar Isaac has some thoughts on why...

Were Poe Dameron and Finn meant to be together? Well, ever since the former complimented the ex-Stormtrooper (while biting his lip) during *Star Wars: The Force Awakens*, fans have been adamant that there was something more to their friendship. That wasn't really touched on in *The Last Jedi*, but it is something Oscar Isaac was hoping for in *The Rise of Skywalker*.

"I think there could've been a very interesting, forward-thinking - not even forward-thinking, just, like, current-thinking - love story there, something that hadn't quite been explored yet; particularly the dynamic between these two men in war that could've fallen in love with each other," he revealed during an interview with [IGN](#) to promote the final chapter in the Skywalker Saga.

"I would try to push it a bit in that direction, but the Disney overlords were not ready to do that."

Looking at Isaac's face as he recalls this points to him being unhappy with the studio's decision, and it will be interesting as we move forward to find out exactly how much these actors enjoyed their time in a Galaxy Far, Far Away (it doesn't seem like much based on a lot of recent comments).

Were you disappointed that things remained platonic between Finn and Poe during *Episode IX*?

The Return of Emperor Palpatine

The Rise of Skywalker wastes no time in (re)introducing the saga's big bad, Emperor Palpatine.

After a brief action sequence which culminates with Kylo Ren getting his hands on a "Sith Wayfinder," the Supreme Leader uses the device to track down the ancient villain on the Sith homeworld. It's never fully explained how Palpatine was able to resurrect himself, but it is strongly hinted that cloning was involved. It's also confirmed that The Emperor "made" Snoke and was speaking through him all along.

Palpatine tells Ren that he can become the new Emperor with the might of the "Final Order" behind him if he finds and kills Rey.

Luke Skywalker's Big STAR WARS: THE RISE OF SKYWALKER Scene Was The Result Of Reshoots

Mark Hamill made only a brief appearance as Luke Skywalker in *Star Wars: The Rise of Skywalker*, but was still involved in a pivotal moment. However, that actually came as a result of last-minute

reshoots.

JoshWilding | 1/7/2020

Filed Under: "Star Wars" Source: The Art of the Cut (via Collider)

Star Wars: The Rise of Skywalker wasn't exactly plagued by production issues like *Rogue One* and *Solo*, but J.J. Abrams wasn't given a huge amount of time to make his finale to the Skywalker Saga and, as is to be expected with the majority of blockbusters these days, reshoots ultimately took place.

That additional photography may have changed the movie more than previously realised, though, because editor Maryann Brandon has revealed that as well as Rey's introduction (where she's floating and calling out to the Jedi from the past), Luke Skywalker's return as a Force Ghost on Ahch-To was part of those reshoots.

"The scene on the island with Luke, when Luke sees Rey," Brandon confirms. "The film kind of informed us, after it was together, what it needed to say so we went back and got that dialogue. There was like a funny moment between Poe and Rey when he lands the Falcon and it's on fire, we wanted to have a more humorous exchange between them. Nothing major, no."

It sounds like Rey was always going to see Luke there, but changes were clearly made, and considering what the characters talked about was so impactful to the final act - we learned about Luke training Leia and the fact they knew Rey was a Palpatine - it's hard not to wonder how this sequence was reshaped.

In Vanity Fair's initial article about *The Rise of Skywalker*, Luke was shown standing alongside R2-D2 as a fire raged in the background, so it's possible he was once going to appear in flashbacks and that we would have learned more about the destruction of the Jedi Temple (a plot point which is currently being explored in The Rise of Kylo Ren comic book series from Marvel).

Sith Trooper Legions Confirm The Return Of Some "Legends" Characters

The Sith Troopers end up doing pretty much nothing in *The Rise of Skywalker* and aren't really all that different to regular Stormtroopers. Interestingly, Emperor Palpatine has named each of the Final Order's legions after the Siths of old, many of whom are Expanded Universe/Legends characters who have now been made canon again as a result.

Those are Revan, Andeddu, Tanis, Tenebrous, Desolous, and Phobos, and it's fair to say that most fans will be particularly excited by the return of *Knights of the Old Republic* standout, Darth Revan. Andeddu hails from the *Tails of the Jedi* comic book, Tenebrous was Darth Plagueis' Master, and both Desolous and Phobos were introduced in *The Force Unleashed*.

As for Tanis, that's a new creation who built a weapon of some sort on the planet Malachor.

The J.J. Abrams-directed film has proven to be highly divisive among fans and critics alike, and actually holds the lowest Rotten Tomatoes score (52%) of any live-action *Star Wars* movie. While this may have had a negative impact on *Episode IX*'s BO (it's far from a flop, but didn't take in nearly as much as its predecessors), moviegoers continue to show up to witness the conclusion of the epic tale.
